Emerging issues locally:

Don't Be The Victim of Theft

Angus has seen a slight rise in thefts from unlocked motor vehicles and theft of Motor Vehicles during this reporting period. Please ensure you lock your vehicle when not in use.

Guidance can be found on the Police Scotland website

Neighbourhood Watch Scotland

Your local Community Police Officers have recently completed a course with Neighbourhood Watch Scotland, which allows them to send out immediate emails reporting such things as suspicious activity in the local area, as well as updates on crimes and other useful information, as such they are keen to have as many people as possible locally to sign up to these emails, which in turn could assist in crime detection and prevention. Being a member of Neighbourhood Watch Scotland could also lead to a discount on home insurance. If you would like to sign up, please use the QR Code Below.

Speeding

There continues to be concerns reported regarding motorists not adhering to the speed limits within the Local area, particularly 20mph speed zones.

Local Speed Initiatives will continue to be planned where possible, and Road Policing Departments have been notified of these continuing issues for extra attention.

The following is guidance provided by Traffic Scotland on enforcement of 20mph limits –

Enforcement

37. Any decision to lower the speed limit to 20 mph should seek to avoid the need for extensive police enforcement, as 20 mph limits will not be routinely enforced, unless it is absolutely necessary and in the interest of casualty reduction.

The only exception to this is the enforcement of 20 mph speed limits outside schools, which takes place on a regular basis.

38. A range of other measures should be employed. These might include marketing and behaviour change initiatives, vehicle actuated signs and traffic management and other traffic calming measures.

39. Any changes should be monitored, and where compliance levels are not at an acceptable level, consideration should be given to the addition of traffic calming measures or reverting to a 30-mph limit, if necessary

**** Please note the above figures cover a 2-month period ****

General Agenda

Community Resilience Planning			An application has been made to the National Centre for Resilience fund for £500. This will allow us to fund the costs of undertaking a consultation with the local communities to understand their needs. It will also help us to formulate a plan and identify other projects that we can apply for funding for. - Identify Community groups and hold working sessions with them to understand their needs/ where they could be part of the Resilience plan - Identify Community members who could be part of a Resilience Group To give our resilience planning efforts a boost, we are pleased to announce that we have been successful in securing a modest but important grant of £500 from the National Centre for resilience. To obtain this, we put together a plan to encourage community participation in developing a resilience plan. Our intention is that with a plan, we will be in a position to make further bids for capital funding to help support the purchase of equipment and upgrades which would enable the community to support each other during a range of events including floods, major snow, storm damage, etc. We will now start to roll out our community outreach plan and seek to get further involvement from residents in our area. We would be grateful to hear from volunteers who would be willing to participate and help shape the plans. £500 grant approved – fill in the banking form to receive funding Form completed. Next step is to ask people if they would like to be involved in a small focus group. ACTION Rose to ask community if they want to be in the focus group once next draft of resilience plan is available (see below) – Close – will be covered as part of the resilience plan discussions No update ACTION Rose to check on the £500 as we have not received it yet ACTION Keith to check on the £500 as we have not received it yet ACTION Keith to send one last email on this Sent. No response received. CLOSE

Uniper Renewables GmbH have reached an agreement with Solar 2 Limited and will now be responsible for the future development. Have notified them we are the correct Community Council and asked for an update https://www.berryhillsolarfarm.co.uk/ this includes an Indicative Site Layout plan which was shared at the Community Council meeting Update from Solar 2 Limited. They expect construction to start in early 2026. They will be honouring the agreement to provide an annual contribution of £500 per MW in each year the solar farm is operational and would welcome suggestions on how the fund might be best used to support local initiatives. The maximum capacity is 50MW per year. Using 45 to 50MW. Action Avril to check when it will be operational. Email received 'We're pleased to be making good progress on the project as we move through the development phase and prepare for construction, which is expected to commence early next year (subject to securing internal company approvals).

		21/01/2026 21/01/2026 21/01/2026	Based on that timeline, we anticipate that the solar farm will begin generating electricity in late 2026 and the first community benefit payment would be expected in late 2027, following the first full year of operations. Please note that all timings remain subject to securing internal company approvals, and may shift as the project progresses. We'll keep you informed as things develop, and we remain keen to engage with you on how the fund might best support local initiatives.' Avril has asked if the £500 will be index linked. It will be index linked – Close ACTION Keith to Review 'Community Benefit Deed' from developer ACTION Avril to email them about traffic concerns during construction and about drainage/old field drains/flooding concerns
