	25/11/2024	Note community email received 25 th November <i>'I have a concern regarding the traffic lights on the junction of Edward place at the corner of tiddlywinks nursery in Muirhead. At least once a week whilst going to and from the nursery with my son, traffic will not stop when the lights turn red for us to cross, resulting in me and my son having to stop in the middle of the road to dodge traffic or being unable to cross until I am sure that the traffic has come to a complete stop both ways. As the lights are so close to the junction it appears difficult to see the change in the lights depending on where the traffic is coming from and drivers go straight through the lights. Many times, I've had drivers signal toe whilst I've been stood in the middle of the road when the green man is on as if we are in the wrong for crossing. I'm very worried there is going to be some sort of serious accident here. A number of other members of the village have also posted this concern on the community Facebook page. Can this be discussed in hopes that something can be done to resolve this issue? Many thanks.'</i>

		15/01/2025 Would traffic calming help? ACTION Keith to request a site visit if Traffic attend Success for Sidlaw meeting 19/03/2025 Cllr Doran is working with Angus Council on this issue On list to be assessed but may take quite some time. This assessment will also include a focus on 20mph proposal 16/07/2025 Cllr Doran provided an update that there will be an Angus traffic meeting to discuss the traffic issues across the whole of Angus. 9/11/2025 Avril has requested traffic data from the crossing. Look at doing a community survey for the issues at the crossing. 21/01/2026 ACTION – a photo to be taken on the lights from the car driver position to demonstrate you really can't see them. And send to Cllr Doran – COMPLETE 18/03/2026 New Facebook comment from the Nursery. 18/03/2026 Would adding secondary repeater lights lower on the lights help as people are looking for traffic at a lower level. Would double yellow lines right along the road help slow down the traffic so that it's not as much of a challenge to get out of the side roads at speed? 20/05/2026 Add to Craig Hudson to review in person when he comes to look at Fowlis 15/07/2026 ACTION – someone to follow up with Craig Hudson to look at Fowlis and additional areas. Please note this is now also in the Police report	
	Lack of gritting on pavements	15/01/2025 <i>Complaint received about lack of gritting on pavements.</i> <i>'During the very cold period in January, a workman fell on Coupar Angus Road Muirhead. I looked at the council website and can see that Coupar Angus Road, Muirhead has been removed from the gritting plan.</i> <i>Inver Terrace and the path linking Inver Terrace and Coupar Angus Road have also been neglected.</i> <i>There are several diversity issues and societal issues being ignored by failing to ensure that we can walk safely on our pavements:-</i> <i>1. Those in the street who have disabilities are being poorly treated compared with others in the village.</i> <i>2. There are many old people in this part of the village whilst the parts of the village benefitting from gritting are newer built houses with younger families in them.</i> <i>3. Religious discrimination by not gritting the pavement is preventing people from accessing Muirhead church which is at the end of the village.</i> <i>4. The church is also a focal point for people with various activities including a Friendship group, Guild meetings and exercise classes. Many of the activities at the church cater for people who are otherwise socially excluded in addition to providing a safe, warm space during the winter months.</i> <i>Those at a greater risk of injury from a fall have now to use car for short journeys instead of walking as they normally do. Short car journeys are also the most polluting as the engine has not reached its optimal operating temperature and this also removes a base level of exercise which would normally be undertaken.</i> <i>People are having to balance the danger from ice on the pavements against the danger from traffic from walking on a main road.'</i> 19/03/2025 Gritting routes are available here https://www.angus.gov.uk/roads_parking_and_travel/roads_and_pavements/winter_gritting_and_snow_clearing/roads_and_pavements_gritting_routes You can request gritting to be done and if there is availability then they will try to do it.	

		19/03/2025 21/05/2025 19/11/2025 21/01/2026	Cllr Doran has asked what the criteria is for gritting of pavements and has requested the current route in Muirhead is extended (from the shops) to at least to the bus stops on both roads and also to cover up to the church Cllr Doran will check up on this Cllr Doran got a reply saying it was not a priority route but they had asked for CC input. Which has now been provided An additional grit bin has been provided at the path from Coupar Angus Rd to Inver Terrace. No bin has been added for Newtyle Rd. Cllr Doran raised this again and an additional GRIT bin was added to Newtyle Rd in February Another Community Complaint has been received as someone fell out of their mobility scooter due to lack of gritting
	Flockloans Bridge Repair	18/03/2026 20/05/2026 15/07/2026	Why is there a delay on the bridge repairs on Flockloans Road? Cllr Doran followed up and it is due to Salmon Spawning - https://www.thecourier.co.uk/fp/news/5392117/fish-spawning-delays-angus-bridge-repairs-june-2026/ Cllr Whiteside provided an update to say work should commence June/July It has now been a year since the road was open
Correspondence		20/05/2026 15/07/2026 20/05/2026 15/07/2026	Email from Angus Council Development Officer Richard Pinner. ' I would like to extend an invitation to hear about the development of the 2026 – 2031 Angus Anti-Social Behaviour Strategy. We would appreciate your involvement and hope to gain some feedback from you around anti-social behaviour and the impact it has in your community. I would be grateful if you could let me know if it would be convenient for me to attend a future meeting' ACTION – Avril to invite Richard to July meeting and request the survey can stay open until then. If he can attend plan the 'stake out' noticeboards to attract attention. Email sent 21/05 Action Avril to follow up Opportunity (TONIGHT) to have a discussion with Freuchie CC https://www.communitycouncils.scot/the-work-of-community-councils/showcases/freuchie-community-council/freuchie-christmas-festival https://www.communitycouncils.scot/the-work-of-community-councils/showcases/freuchie-community-council/role-of-freuchie-community-council ACTION Avril to request copies of their planning documents Not done

Funding Opportunities			
Finance/ Treasurer	Community Council Development	19/11/2025	Community Council Development (See email 'Community Council Update' from Community Planning) - £250 per CC to promote the awareness and work of the community council before next year's elections. First track via Treasurer until money comes in.
		21/01/2026	Can we use this for promoting our resilience event ? We believe it can be
		18/03/2026	We did not use the funds for the resilience event. There will be CC election campaigns held from 17 th August to end September 2026. We can share these campaigns on social media
		15/07/2026	Annual Treasurer report was sent in July
	Hybrid Spend	21/05/2025	£200 Hybrid spending was discussed and may be used on a speaker phone and camera to make it easier to have hybrid meetings. Or on a new email/website system
		17/09/2025	Agreed to try it out with our own home equipment first to see if it would work.
		19/11/2025	Home speaker works on WhatsApp but not tried camera or teams. Plan a hybrid meeting for 2026 for CC members only to try it out 18 th March 2026
		18/03/2026	Test Hybrid meeting was successful but would be better with access to the screen in the Tom Brown room and with proper Hybrid meeting equipment. Hong will put in a request for us to borrow a Hybrid meeting kit from Angus Council (request sent by Hong on 19/03/2026)
		20/05/2026	Angus Council have not got the hybrid camera working properly yet
		15/07/2026	Hybrid cameras still not working but another CC has bought cameras and got them to work. ACTION Hong to send details of their system
Planning	NPF4 Update	15/11/2023	MBLCC have responded to Angus Council's call for interest in participating in the creation of a local area development plan. Members are reminded that the minutes of July 2023 explain the importance of the new National Planning Framework 4

	Berryhill Solar Farm Community Benefits	19/03/2025 21/05/2025 16/07/2025 17/09/2025 19/11/2025	Keep on the list to check up once the Solar Farm is up and running. Uniper Renewables GmbH have reached an agreement with Solar 2 Limited and will now be responsible for the future development. Have notified them we are the correct Community Council and asked for an update https://www.berryhillsolarfarm.co.uk/ this includes an Indicative Site Layout plan which was shared at the Community Council meeting Update from Solar 2 Limited. They expect construction to start in early 2026. They will be honouring the agreement to provide an annual contribution of £500 per MW in each year the solar farm is operational and would welcome suggestions on how the fund might be best used to support local initiatives. The maximum capacity is 50MW per year. Using 45 to 50MW. Action Avril to check when it will be operational. Email received ‘We're pleased to be making good progress on the project as we move through the development phase and prepare for construction, which is expected to commence early next year (subject to securing internal company approvals). Based on that timeline, we anticipate that the solar farm will begin generating electricity in late 2026 and the first community benefit payment would be expected in late 2027, following the first full year of operations.

			Please note that all timings remain subject to securing internal company approvals, and may shift as the project progresses. We'll keep you informed as things develop, and we remain keen to engage with you on how the fund might best support local initiatives.'
	21/01/2026		ACTION Avril to email them about traffic concerns during construction and about drainage/old field drains/flooding concerns
	20/05/2026		Update from Uniper (2/4/2026) Thank you for your email and questions regarding our proposed Berryhill Solar Farm. Taking each question in turn, we hope this provides sufficient information at this time, but please feel free to ask further questions. 1. During the construction, which roads will be used and for how long? We are still in discussions with the relevant local authorities to finalise the construction traffic management plan. However, our current plans are for access to the site to be via the A90 at Longforgan, travelling along the C403, U144 and U331. From the junction of the C403 and U144 northwards, the access route narrows to a single-track road and continues generally northwards towards Berryhill Solar Farm. We aim to minimise the disruption to the local community and will continue to closely monitor site operations to ensure compliance with agreed standards. Construction traffic will use the approved access routes in line with the Traffic Management Plan, with appropriate signage and safety measures in place. 2. There are concerns about drainage and old field drains being damaged and about flooding in general. Uniper has commissioned a full flood risk and field drainage analysis as part of our approved planning submissions to the Council. We are talking with the site landowner about the presence of field drains and these will be fully considered when developing our plans for installation. If there are specific concerns from the local community about run-off and field drains, please let us know and we would be happy to give them further consideration. 3. What are the decommissioning plans? Solar farms are classified as temporary developments under planning regulation. The proposed solar farm at Berryhill would operate for approximately 40 years. At the end of this period, the site would be fully decommissioned, and the land reinstated in accordance with planning requirements. 4. What happens to any contracts if there is an organisation change?

			Where transfers of ownership occur, it is normal practice for existing contracts to be transferred to the new owner.
	Solar Farm Legal	18/03/2026 20/05/2026 20/05/2026 15/07/2026 15/07/2026	ACTION Keith to Review 'Community Benefit Deed' from developer The Contract is quite complex. Murroes and Wellbank, and Tealing have all put something in place. Discuss options with them at next Success for Sidlaw meeting in March Tealing have setup a Development Trust. ACTION Keith to email them for info and newsletter. ACTION Avril to ask local solicitor for help Waiting for feedback Setting up a development trust/charity or Scottish SCIO (Scottish Charitable Incorporated Organisation) is not straightforward. Fire Issues

All fires of concern should be reported to Scottish Fire and Rescue Service by calling 999. If SFRS think the police are required in terms of criminality or wider public risk they will contact the police direct.
